

## mTape<sup>®</sup> Thunderbolt LTO-7

The World's First Thunderbolt LTO-7 Tape Drive

mTape is a desktop LTO-7 tape archiving solution that connects to any Thunderbolt equipped computer for effortless backup and archiving of critical media assets.

LTO-7 is an industry standard tape format that offers a shelf life of up to 30+ years (significantly longer than spinning disk or SSD technology) and is the most cost-effective storage medium on a cost per TB basis.

mTape supports the Linear Tape File System (LTFS). Our free mTape LTFS Utility mounts LTO-5, 6, & 7 tapes just like a hard disk enabling drag and drop functionality.

### mTape LTO-7 Highlights

- Desktop Thunderbolt LTO-7 tape archiving solution certified by Apple & Intel
- 6 TB native storage capacity per tape cartridge
- Up to 300 MB/second data transfer rate
- Dual Thunderbolt 2 ports
- Reads and writes to both LTO-6 & 7 tapes, reads LTO-5 tapes
- External SAS port enables writing to two or more LTO drives simultaneously
- Compact, portable form-factor
- DC powered - Enables use in any environment
- Free utility supports LTFS for drag and drop functionality
- Mac OS X and Windows compatible

\*Requires third party software supporting this feature

## Backup. Archive. Manage.

mTape LTO-7 works with your favorite software.

Compatible with industry leading software;

- Archiware P5
- Axle Video Axle
- Imagine Products PreRoll Post
- Retrospect, Inc. Retrospect
- Square Box CatDV
- StorageDNA DNA Evolution
- TOLIS BRU
- XenData XenData6 Workstation
- YoYotta YoYottaID LTFS

## Innovative Design. Solid engineering.

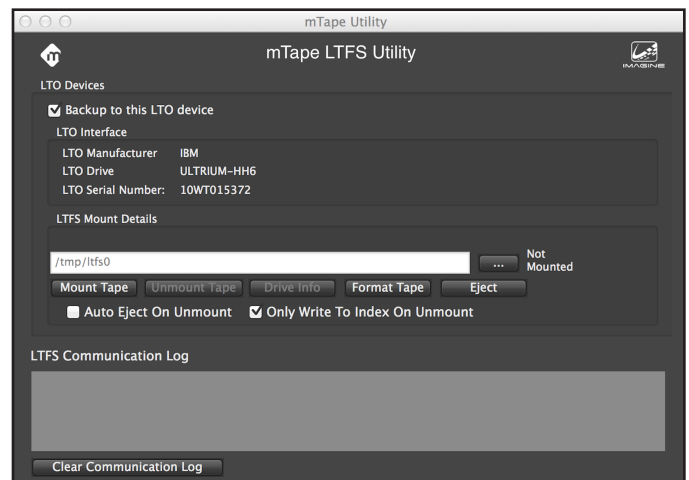

mTape LTO-7 features a small, compact form-factor design with aluminum construction that is ideally suited for mobile applications. With the inclusion of DC power, mTape LTO-7 can be used in any environment, be it the studio or a remote location.

*The free mTape Utility supports the Linear Tape File System (LTFS). With LTFS, mTape mounts on the desktop just like a hard disk enabling drag and drop functionality. Simply install the mTape Utility, connect mTape to your computer and launch the utility to safely format, mount, and eject tapes.*
