

## Restore Certified Tape Media

*Learn more about the benefits of Restore Certified Tape Media*

Restore Certified Tape Media is tape which has been processed, tested and packaged to work as effectively as new tape. Backed by the Restore Guarantee, certified tape media is as effective and reliable as new tape, but comes with huge cost-saving benefits.

A Restore tape has only been used for a small percentage of its recommended lifespan, before the data on the tape was securely erased using specially developed technologies. This then allows for tapes to be reused with as-new reliability, in perfect condition in both appearance and performance.
